We submitted to you a statement from a licensed Plumber that our lines were laid to States Specification. If the meter is put at our home we understand the lines we put in would become the property of Green-Taylor Water Dist. If they don't want the responsibility we would sign a statement that we would be responsible for the line. As it is now we are responsible. Where our meter is located now, we've had the cap broken and meter frozen due to the state bushhogging over the meter. This was a big inconvenience as we have a severely retarded daughter we need to have our water for. If it wasn't for her we would have been like everyone else on our road dig a well. The grass is never maintained its hard to get readings and we have already killed snakes.

Wherefore, complainant asks To have our meter
(Specifically state the

moved to our house
(relief desired.)
